Hi Cynthia,

Thanks for getting back to me.

I will send you a copy of our list so that you can add any contacts not already on your list. Since you and I will probably be working on this site in coordination at times (nice to meet you by the way), why don't you be the keeper of the list since you already have one started. We will add this to our file but won't start a list. Does that work for you?

Hi, Jeni.

I am the new CIC for this site, so Rich forwarded your question to me. I'm actually not sure how we have coordinated with states in the past regarding contact lists. We have created a list for this site. If you would email me a copy of the attendee list, I could add those names to my list. I'd be happy to share the list we have with you, also, if that would be helpful.

Thanks,
Cynthia

Hi Cynthia—I'll defer to you on this question about a mailing list for CFAC. Can you follow up with Jeni? Let me know if I can help. Thanks! Rich x 6654

Hi Richard,

I still have the sign-in sheet for the CFAC mailing list. See the emails below to see my original questions to our management. Can you address the questions in Denise's follow-up email?

Thanks!

Jeni:

CECRA has a site file started. I'm not sure how EPA/DEQ handle public involvement tasks for NPL sites. If DEQ will be the lead for sending out information, then it would be helpful to start a mailing list. However, it is possible that EPA has already created a mailing list. Would you please touch base with the EPA PIO that you worked with on the December 2014 public meeting and determine if they have already created a mailing list? Thanks!

Denise

I still have the sign-in sheet from the meeting in Columbia Falls. Do we have a file started for this site that this can go in? Should I give it to an admin to start a mailing list as well?
